

LIFE-LINE ORGANICS NITROGEN 16-0-0 (LON-16)

NITROGEN IS AN ESSENTIAL NUTRIENT FOR PLANT GROWTH AND VITALITY

LON-16 is a rich source of nitrogen derived from plant based soy protein. As the “backbone” of plant growth and development, nitrogen provides the building blocks for proteins, DNA/RNA and chlorophyll production, driving photosynthesis, green growth, root development and overall plant vitality.

16-0-0 Guaranteed Analysis

Total Nitrogen (N)16.0%

15.9% Water Soluble Nitrogen

0.1% Water Insoluble Nitrogen

Derived from: Soy protein hydrolysate.

CAUTION: KEEP OUT OF REACH OF CHILDREN AND PETS. Do not ingest. Avoid inhaling the dust, vapor, or mist. Avoid contact with eyes, skin, and clothing. Wash hands and affected areas after use with soap and water.

A rich source of Nitrogen recommended for use on all indoor and outdoor agriculture and horticulture crops. Mixed with water, LON-16 can be applied as a foliar application by ground or air; or, through drench, drip, or flood irrigation on soil. Apply LON-16 according to recommendations based on plant tissue or soil analysis for your specific crop.

MIXING INSTRUCTIONS: Mix well in the desired amount of water. LON-16 is believed to be compatible with most fertilizers and plant nutrient products, with the exception of products containing high levels of Calcium. When mixing with other products it is recommended that a physical compatibility test be conducted before use. A test using small quantities in proportion to field application rates is recommended.

DIRECTIONS FOR USE:

LON-16 is a commercial fertilizer and should be used as part of a comprehensive nutrient management program, determined from soil and plant tissue analysis for your specific crop. It is recommended for use in all indoor and outdoor agricultural and horticultural crops.

Agricultural and Horticulture crops: Apply 2-10 pounds per acre during active plant growth or as determined from soil and plant tissue analysis for your specific crop. This product is a commercial fertilizer and should be used as part of a comprehensive nutrient management program.

Lawn and Garden: Mix 1-2 Tablespoons per gallon of water. Apply every 2-4 weeks or as needed throughout the year.
